

As the Director of Operations for a PEG Station in Batavia, IL, I am also a costumer of Comcast. So first you are attacking my job. If BATV doesn't receive franchise money then I will not have a job, a community will not have access to their tv station and the Batavian's all over the world won't get to check in on want's going on in our town and their community. Batavia is a community that watches and depends on their PEG station to cover community events and government meetings. This would be a great loss to everyone who lives in Batavia or has lived in Batavia.

Second, I am a consumer , it is disheartening to see the FCC giving away the majority of consumer protections over to a bunch of corrupt corporations. I would like you to think about the American citizens that you would be harming and what you are taking away from them. Corporations will be fine it's the people you are hurting.

Jennifer Brens
Director of Operations
Batavia Access Television
Batavia, IL 60510
